

**TOWN OF RIDGEVILLE
MINUTES OF TOWNSHIP ROAD REVIEW
November 05, 2015**

Board Members in attendance: 1st Supervisor, Ron Luethe; 2nd Supervisor, Keith Giraud and Road Patrolman Kaleb Bach.

The purpose of the meeting was a field review of the PASER road rating procedures and general road review of the township roads.

We placed traffic counters on Keats, Mercury, and Incline to determine the traffic volumes on those roads. They will be in place for two weeks. The counters were borrowed from the Monroe County Highway Department.

We reviewed a problem culvert area on Kendall Avenue just south of the Mike Hedrick farm. The road surface is failing due to poor drainage. The road will need to be built up and the culvert will need to be replaced. Since the culvert is a cattle crossing it will add additional expense. There is a program from the county where they will cover one-half of the cost of the culvert.

We reviewed the culvert area that is part of the Shawn Jacobson driveway permit on Kent Avenue. The landowner continues to question the need for the culvert. We noted the ditch slopes from east to west along the north side of Kent Avenue. If a culvert is not installed the water will run down the driveway. It is in the landowner's best interest to install this culvert.

We reviewed a potential driveway site along Keats Road. The question was if a driveway could be installed at the site. It was determined a driveway could be installed and would require a culvert.

Adjourn Meeting

The meeting was adjourned with a motion by Keith Giraud and seconded by Ron Luethe. Motion Carried.

Rita Williams
Clerk
