Hi All,

Our last meeting was in March, 2020 and we have not had a meeting since the COVID-19 pandemic. I would like to get the plan development back on track so we can have the final document done by the end of 2020.

We decided to conduct the meeting via phone or video conference since we are still in the midst of the pandemic. Below are the instructions to join the conference by video or phone.

Please see the information below. Users can dial in OR join the video conference via the URL, Meeting number and password below:
